Subject: Upper Animas Mining District Indices for 104(e) Responses

Mike,

Per EPA's telephone request this morning, please find attached the indexing information that Toeroek has available for 104(e) Responses submitted to the U.S. Environmental Protection Agency in 2013 for the Upper Animas Mining District Site. The 104(e)'s were submitted by:

- [REDACTED] Kinross Gold Corporation
- [REDACTED] Mueller Industries, Inc.
- [REDACTED] Sunnyside Gold Corporation
- [REDACTED] Washington Mining Company

Please note that the title or file description included in the attached indices for the Mueller, Sunnyside (non-CBI), and Washington collections was provided as the file name of the electronic document. These file descriptions have not been QA'ed. However, when Toeroek reviewed the information, it was found that these descriptions generally match the document contents.

The documents provided by Kinross (non-CBI and CBI) and Sunnyside (CBI) were not indexed and no file descriptions were provided.

Each attached Excel file contains the Bates Number Range per Document, information regarding the Attachment Number or Box Number, a general document description, and a corresponding SDMS reference number, if that type of information is available.

If you need any additional information or help, please let us know.

Thank you,

Lindsay Garner | Project Manager
